April 2014

Every day, Clark Seif Clark professionals are deployed across the nation helping both large and small customers resolve health & safety, industrial hygiene, environmental and indoor air quality issues.

At a moment's notice, Clark Seif Clark can send their experts anywhere they are needed. No matter if it's in response to a hurricane, wildfire, flood, tornado, or other natural disaster, Clark Seif Clark is ready to help and can respond in no time at all.

R&R Magazine Features Article from Prominent Indoor Environmental Quality Expert

In the March issue of Restoration & Remediation magazine, Clark Seif Clark's Derrick A. Denis had the opportunity to provide his insight of some common indoor environmental quality (IEQ) issues and hazards that restoration and remediation contractors might face during the course of their work. The article, "Erring on the Side of Caution," discusses some potentially hazardous conditions that could put workers and building occupants in harm's way.

Throughout the article, Mr. Denis shares some of his thoughts and concerns regarding carbon monoxide, carbon dioxide, asbestos, lead-based paint (LBP), infectious agents, and even hazards associated with explosions and toxic gases that can form when certain chemicals are accidentally mixed.

Mr. Denis is the Vice President of IEQ for Clark Seif Clark and currently serves as the Indoor Air Quality Association's (IAQA) Vice President and on their Board of Directors. As a twenty year veteran of IEQ, he has had the opportunity to investigate and resolve thousands of cases across the country. Mr. Denis is also the Chapter Director for the Indoor Air Quality Association's Phoenix Chapter and has previously been on the Board of Directors of the Arizona Chapter of the Environmental Information Association (EIA) and
